MADE IN  
THE USA

# HAVE NO DOUBT.

## INTRODUCING A BALLISTIC SECURITY BARRRIER

Buffalo Armory has built a strong reputation for providing unmatched ballistic armor solutions—protecting our first responders and military personnel. Continuing with our dedication to fully protect and building on our innovation, our ballistic security barrier provides a trusted solution to protecting you and those in your care in the event of an active shooter event.

**Ballistics Certified by the National Institute of Justice,  
DOD and UL752 Standards**

**High-Velocity Rifle Fire Protection and All Lessor Handguns**

**Unique, Patent-Pending Design**

# THE PROTECTION YOU TRUST. THE PEACE OF MIND THEY DESERVE.

- Completely independent stand-alone, single layer, auxiliary ballistic barrier system installed over the wall, separate from the door
- The ballistic barrier can be installed even in space-restricted locations, over both in-swinging and out-swinging doors
- Creates a ready-made “safe room” for the people you care about the most
- Applicable in multiple public facilities, such as school classrooms, places of worship, healthcare facilities, government buildings, and homes
- The ballistic barrier can be customized with your organization’s visuals
- The ballistic barrier is secured with an electrical mechanical lock that can be manually opened from within the structure by a responsible adult or remotely opened from the hallway by administrators and first responders
